SUMMARY

Motivated and detail-oriented Computer Applications postgraduate with strong technical knowledge in Java, SQL, MySQL, HTML, CSS, JavaScript, and web technologies. Strong problem-solving and troubleshooting skills with hands-on experience in developing applications and working with databases. Good understanding of debugging, identifying technical issues, and providing solutions. Quick learner with good communication and teamwork skills, seeking an opportunity as a Technical Support Advisor in a reputed organization.

SKILLS

Programming: Java, JavaScript, SQL**Web**

Technologies: HTML5, CSS3, React.js**Database:**

MySQL, SQL**Backend:** Core Java, Advanced Java,

Spring Boot, REST APIs**Tools:** Git, GitHub,

Postman, VS Code, IntelliJ IDE**Technical Skills:**

Troubleshooting, Debugging, Problem Solving,

Database Queries, API Testing**Soft Skills:**

Communication, Team Collaboration, Quick

Learning, Customer-Oriented Approach**Operating**

Systems: Windows, Linux

EDUCATION

NIMRA COLLAGE OF ENGINEERING

2024 – 2026 | Vijayawada

Master of Computer Applications (MCA) -4th Semester Completed, Results Awaited

The Adoni Arts and Science Collage

2020 – 2023 | Adoni

Bachelor of Science (B.sc -MECs)

PROJECTS

Employee Management System (SQL PROJECT)

Technologies: SQL, MYSQL

- Developed an Employee Management System using SQL and MySQL.
- Designed and managed employee database tables with proper relationships.
- Performed CRUD operations (INSERT, UPDATE, DELETE, SELECT) using SQL queries.
- Used JOINS, Aggregate Functions, and Views to generate employee reports.

SkyBook – Flight Ticket Booking Web Application

- **Technologies :** React.js | JavaScript | HTML5 | CSS3 | React Router DOM | LocalStorage

- Developed a responsive **flight ticket booking application** using React.js.
- Implemented **flight search, seat selection, passenger details, payment flow, and booking confirmation.**

- Implemented **Login/Signup, booking history, and cancellation** using LocalStorage.
- Implemented **React Router DOM, dynamic fare calculation, booking ID generation, and reusable components.**
